

## Reed City Group Capabilities

Reed City Group, LLC is a vertically integrated production injection molder, tool and die maker, and automated equipment manufacturer; serving several different markets. For nearly 60 years, Reed City Group has provided high quality craftsmanship in the areas of mold making and manufacturing of large-scale hydraulic presses. The experienced team has leveraged a reputation of high integrity, customer service and quality to expand its market and capabilities, becoming a reliable partner for a wide range of customers. Our team of 137 employees has been rapidly growing and is poised to continue down that path. This team is made up of a diverse group with a variety of backgrounds - skilled journeyman mold makers, skilled machinists, mechanical engineers, and process technicians.

## Our Materials and Machines

We are currently home to 27 plastic injection molding machines ranging from 28 tons to 725 tons. We are currently running the following: Nylon, ABS, PC-ABS, PP, PE, Acetal, Acrylic, PC, PPA, TPE, and TPV. With multiple certified master molders on staff, as well as an in-house tool shop, we are primed to process any materials that our customers need. With a recent investment in 8 brand-new machines, our team is willing to invest in equipment. With an additional 80,000 square feet ready for expansion in our secondary location, we are poised for growth immediately. A class 8 clean room installment is also available for those materials and processes required in multiple industries.

## 24/7 Emergency Care

Our team at Reed City Group will always be on standby for emergency care for your products. From engineering changes, to mold repairs, to quality checks - our team is ready for the challenge when it presents itself, when you need us!

## Domestic Operations with Landing Options

With over half of a century of experiencing in tooling, we also have grown and nurtured foreign relationships with proven partners. If you need a landing partner, or need foreign outsourcing assistance, our team at Reed City Group can be there to help. You'll work with our skilled program managers, who will lead designers, mold makers, and machinists to get your company what you need!

## Turnkey Solutions

With every aspect of the manufacturing process under our roof, we don't stop at molding parts. We also provide turnkey part inspection, assembly and shipping. Joining our skilled tradesmen, who ensure the unerring quality of plastic molds and parts, is our injection plastic molding fulfillment team. Skilled part experts guide the inspection, troubleshooting, assembly and quality control process. Alongside these parts experts, as well as our experienced shipping and logistics experts, our program managers guide the packaging and fulfillment process, creating turnkey injection molded part production.
